Chapter 13: Part 3/ The Japan Trench (3)

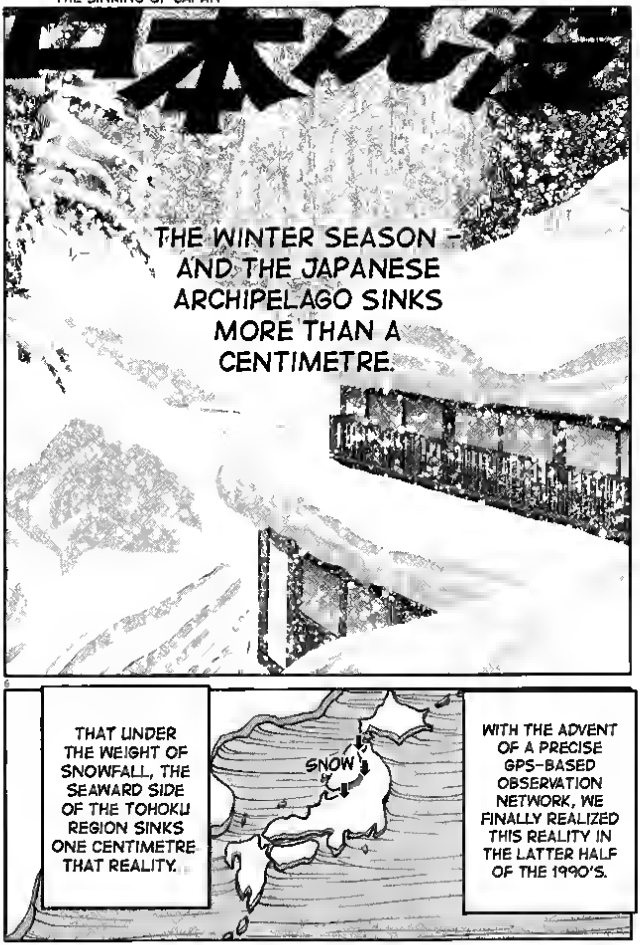
IT CAN'T BE HELPED.
BUT DOES HE REALLY HAVE TO GO THIS FAR, THAT PROFESSOR...
WHAT KIND OF INVESTIGATION IS THIS?
THEY... CUT OFF... CONTACT.
DE... MR. DERA? HEEEEEY...!?
UNLESS YOU'RE IN AN ACCIDENT NOT A SOUND, NO NEED TO [illegible] OVER.
AND UNTIL WE RESURFACE, DON'T MAKE NOISE ON THIS COMM. IT'LL MESS WITH THE UNITS.
WHAT?...

Chapter 13: Part 3/
The Japan Trench (3)

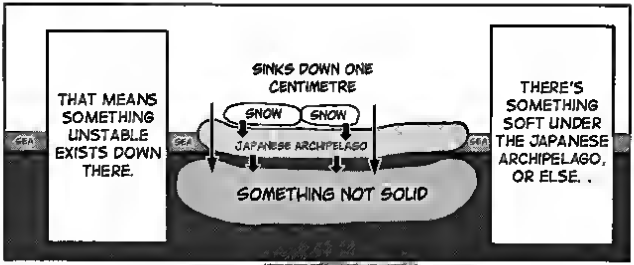
I SHOULD BE ABLE TO RECEIVE THE DATA FROM THIS TERMINAL. IT'S THIS ONE, RIGHT?
RATTLE
WHA... WHAT ARE YOU DOING?!
RATTLE
RATTLE
RATTLE
I THOUGHT I TOLD YOU
WE AGREED THAT ALL OF THE OBSERVED DATA WOULD BE MINE
THERE'S NEED TO MAKE COPIES OR BACKUPS. LEAVE IT TO ME.

UNDERSTOOD.
ALRIGHT, EVERYTHING'S IN ORDER LET'S GET GOING, ONODERA.

*THE SINKING OF JAPAN

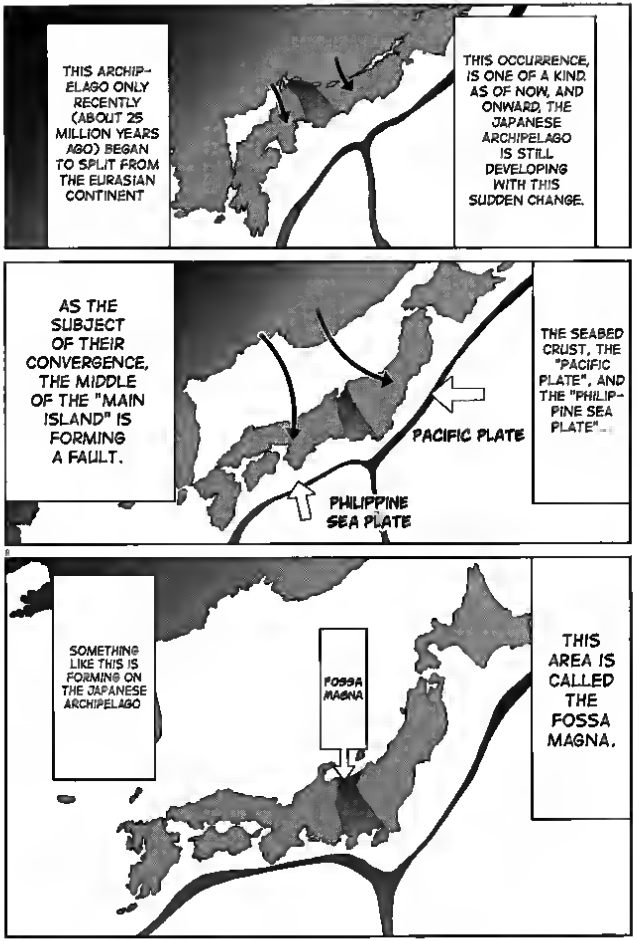


日本沈没
THE WINTER SEASON – AND THE JAPANESE ARCHIPELAGO SINKS MORE THAN A CENTIMETRE.
THAT UNDER THE WEIGHT OF SNOWFALL, THE SEAWARD SIDE OF THE TOHOKU REGION SINKS ONE CENTIMETRE THAT REALITY.
SNOW
WITH THE ADVENT OF A PRECISE GPS-BASED OBSERVATION NETWORK, WE FINALLY REALIZED THIS REALITY IN THE LATTER HALF OF THE 1990'S.

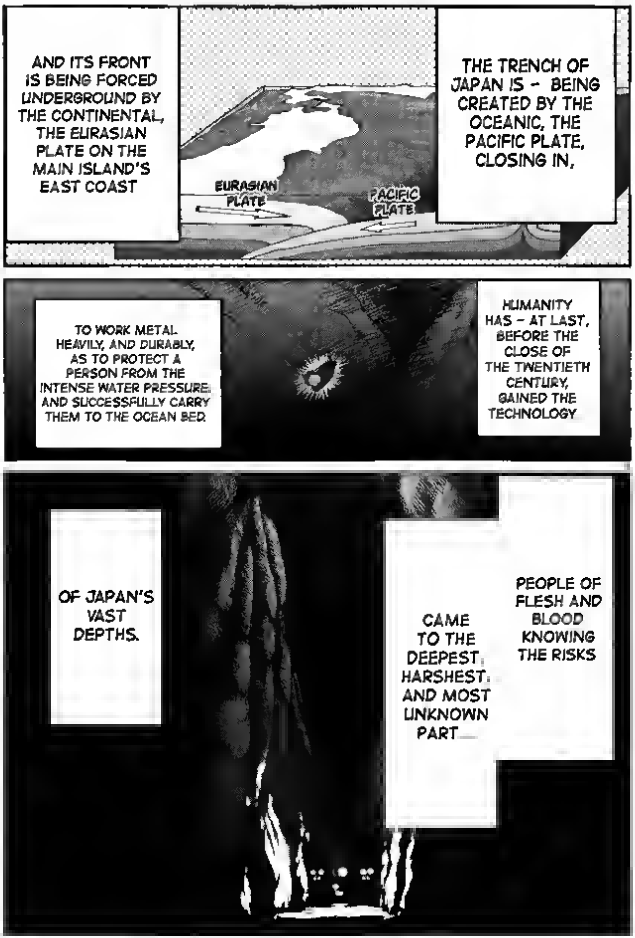


THAT MEANS SOMETHING UNSTABLE EXISTS DOWN THERE.
SINKS DOWN ONE CENTIMETRE
SNOW
SNOW
SEA
SEA
SEA
JAPANESE ARCHIPELAGO
SOMETHING NOT SOLID
THERE'S SOMETHING SOFT UNDER THE JAPANESE ARCHIPELAGO, OR ELSE. .

PROFESSOR TADOKORO HAS ALREADY MADE UP HIS MIND THAT THE SUBSTANCE IS A LIQUID.
SIMILARLY, IN THE LATE 20TH CENTURY, IT WAS MADE PUBLIC THAT METHANE HYDRATE WAS DISCOVERED UNDERGROUND ON THE SEABED AND POSSIBLY A LARGE AMOUNT WAS POSSIBLY SEEDED DEEP INTO THE MANTLE
ON EARTH, IT'S A MORE THAN UNUSUAL OCCURRENCE"
IN THE FIRST PLACE, THE JAPANESE ARCHIPELAGO ON A GEOLOGICAL SCALE



THIS ARCHIPELAGO ONLY RECENTLY (ABOUT 25 MILLION YEARS AGO) BEGAN TO SPLIT FROM THE EURASIAN CONTINENT
THIS OCCURRENCE, IS ONE OF A KIND. AS OF NOW, AND ONWARD, THE JAPANESE ARCHIPELAGO IS STILL DEVELOPING WITH THIS SUDDEN CHANGE.
AS THE SUBJECT OF THEIR CONVERGENCE, THE MIDDLE OF THE "MAIN ISLAND" IS FORMING A FAULT.
PACIFIC PLATE
PHILIPPINE SEA PLATE
THE SEABED CRUST, THE "PACIFIC PLATE", AND THE "PHILIPPINE SEA PLATE"
SOMETHING LIKE THIS IS FORMING ON THE JAPANESE ARCHIPELAGO
FOSSA MAGNA
THIS AREA IS CALLED THE FOSSA MAGNA.



AND ITS FRONT IS BEING FORCED UNDERGROUND BY THE CONTINENTAL, THE EURASIAN PLATE ON THE MAIN ISLAND'S EAST COAST
EURASIAN PLATE
PACIFIC PLATE
THE TRENCH OF JAPAN IS - BEING CREATED BY THE OCEANIC, THE PACIFIC PLATE, CLOSING IN,
TO WORK METAL HEAVILY, AND DURABLY, AS TO PROTECT A PERSON FROM THE INTENSE WATER PRESSURE, AND SUCCESSFULLY CARRY THEM TO THE OCEAN BED.
HUMANITY HAS - AT LAST, BEFORE THE CLOSE OF THE TWENTIETH CENTURY, GAINED THE TECHNOLOGY
OF JAPAN'S VAST DEPTHS.
CAME TO THE DEEPEST, HARSHEST, AND MOST UNKNOWN PART...
PEOPLE OF FLESH AND BLOOD KNOWING THE RISKS

BEEP

BEEP
IF IT'S JUST THAT, THE CAMERA'S OPTICAL EYE SEEING THE LANDSCAPE OR THE ELECTRONIC EYE MUST HAVE STARTED TO GET DISLOCATED, ESPECIALLY DOWN BELOW.
A CALCULATION ERROR... THE DATA ON THE TOPOGRAPHICAL MAP IS IN REAL TIME, SO WE WOULD ALREADY BE PASSING OVER THIS ERROR
THERE'S ONLY ONE REASON YOU'D DO THAT...
THERE APPEARS TO BE A DEVIANCE BETWEEN THE MAP IN YOUR HANDS AND THE TRUTH IN YOUR EYES, ONO-DERA.
AS THE PILOT, COULD YOU LEND ME A GRASP ON THE SITUATION? HMM?
DOWN A BIT MORE, AND WE'LL BE ABLE TO SEE THE OCEAN BED... IT'D BE BEST TO KNOW IF OUR FEET HAVE TRACTION.
THERE ARE WHEELS ON THE REMORA 1.

THERE'S NOT REALLY ANYTHING FRIGHTENING TO FRET OVER.
HOWEVER FRIGHTENING IT MAY BE, I NEED TO STEP OUT AND CHECK.
HOWEVER OFF THE MAP MAY BE, I HAVE NO CHOICE BUT TO CORRECTLY REWRITE IT.
WE'VE REACHED THE BOTTOM.
MORE THAN VOYAGE AS A SUBMARINE, WE NEED TO KEEP THE WHEELS RUNNING SMOOTHLY FOR GROUND TRAVEL.
CREAK...

!?
SKIRR
WOAH..
AH..AH!
OOH
UH
WIO
UH
WH

D... DENSITY IS 1053...
MY THEORY PROVED TRUE. THIS IS A PHANTOM BOTTOM.
THE TAGAME HAS GONE BELOW THE SEA BED!? PROFESSOR, IT JUST...
YUKINAGA... THIS IS.
THE DENSITY IS DRAMATICALLY LEAPING, PROFESSOR!!
IT'S COMPOSED OF A MASS OF HEAVY METAL IONS...!!
THAT'S THE GREATEST DENSITY OCEAN WATER CAN GET!!
IT'S A DSL JUMPING IN DENSITY... WE'RE IN A DEEP SCATTERING LAYER!..

MY...
"I'M COMPLETELY FINE AT THE BOTTOM OF THE OCEAN..."
"FINE AT THE BOTTOM OF THE OCEAN"
I DON'T GET IT!! I DON'T GET IT AT ALL!!
FIRSTLY, WHY DID WE FIND THIS PHENOMENON AT THE BOTTOM OF THE SEA!?
PLANKTON DSL'S ARE USUALLY FOUND AT A STANDARD DEPTH OF 100 METRES, BUT THIS PHENOMENON OCCURRED, AND BYPASSED THE ULTRASONIC SCANNING.
HAA
HAA
HAA
HAA
HMM...?
WHAT?.. A DEAD END?..
NO...
WHAT IS HAPPENING AROUND HERE...!?

WH...

PROFESSOR... OUR DEPTH... IS NOW GREATER THAN 10,500...
THIS KIND OF THING IS...
WHAT HAVE WE FOUND?..

!?
LAST TIME WE DOVE... THIS KIND OF THING WAS... ABSOLUTELY IMPOSSIBLE...
VINK
PROFES-SOR...! NOW...! DOWN!..
ONODERA... DOWN. SHINE YOUR SEARCH LIGHT DOWN!!
THAT'S...

DON'T FORGET TO LEAVE A FEEDBACK.
THIS REDRAW LOOKS GOOD TO YOU, BURGHF
YEAH SHUU, BUT IT NEEDS MORE REDRAWS HERE AND THERE AND THIS
PROOFREADS DONE!, TYPESET THIS PLEASE.
ROLL UP THE NEXT UPDATE!
RAWS... MEAT?
HMMM...
TRANSLATIONS HERE I COME!
SCRIPTS
SEE YOU IN THE NEXT UPDATE~!
